Commissioner for Patents

The reply filed on August 13, 2009 is not fully responsive to the prior Office action because of the following omissions or matters: The substitute specification filed August 13, 2009 does not comply with 37 CFR 1.125(c), which states "A substitute specification submitted under this section must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) must also be supplied." The marked-up copy of the substitute specification does not include the Appendices to the Specification, as originally filed on October 23, 2003 and does not properly indicate whether the text is amended, deleted, or unchanged. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
